

Cameron Alexander

Senior Metals Analyst

Having joined GFMS in 2005, Cameron is currently employed as a senior metals analyst at Thomson Reuters GFMS. He is responsible for precious metals research across South East Asia , Australasia, and much of the Middle East. His main area of work covers jewellery, industrial, and investment demand as well as scrap supply and metal flows from these key regions.

Prior to GFMS, Cameron worked for over seven years with Australian based precious metals refiner AGR Matthey in the position of Commercial Manager.
