

**William Tankard**  
**Metals Analyst**

William Tankard joined GFMS Limited as a Metals Analyst in 2005. In 2007 he was appointed Senior Mining Analyst, heading the company's research on global mine production, mining costs and producer hedging issues in the gold, silver and platinum group metals markets.

In addition to undertaking mining research for GFMS' annual surveys, forecasts and bespoke consulting assignments, his recent focus has been on the development of GFMS' market-leading *PGM Mine Economics Service*.

Prior to his time at GFMS, William worked for Sweet & Maxwell, a subsidiary of Thomson Reuters, where he assisted in online product development. He holds a BSc. (hons.) degree in Natural Sciences from the University of Durham, where he specialised in Geology.
