TIMOTHY GREEN

The Ages of Gold

By Timothy Green

This is the story of the mines, the markets, the goldsmiths and the merchants who, over the last 6,000 years, made gold a symbol of wealth and power.

This is the most comprehensive book ever written on the history of gold by the author of *The World of Gold*, *The Gold Companion* and *The Millennium in Gold*.

Building on forty years' experience investigating the modern gold market, Timothy Green has sought out its ancient origins in Mesopotamia, Egypt, Troy, Minoan Crete, Greece, China, Rome, Byzantium, Venice and Precolumbian South America.
